
Mauna Loa Solar Observatory Observer's Log

Sun Apr 13 16:15:05 GMT 2014

Year: 14 Doy: 103

Observer: waters

WEATHER COMMENT: waters: Sun Apr 13 16:15:18 GMT 2014

Low clouds coming in from the East-Southeast, bring drizzle and fog. Temp 36F with windspeed 11mph from the East-Southeast . Will wait for better weather before opening up.

____end____

GENERAL OBSERVATORY COMMENT BY waters: Sun Apr 13 17:17:24 GMT 2014

Most of the clouds directly above and to the West have burned off. However, still getting fog from the Southeast.

____end____

GENERAL OBSERVATORY COMMENT BY waters: Sun Apr 13 20:07:16 GMT 2014

Continuing to go in and out of wet fog with a perfectly clear path to sun viewing...

____end____

GENERAL OBSERVATORY COMMENT BY waters: Sun Apr 13 22:51:16 GMT 2014

Fog has dissipated but thin wispy clouds are passing over head. Going to start Pspt.

____end____

Sun Apr 13 23:05:51 GMT 2014: PSPT Start Patrol

KCOR COMMENT BY waters: Sun Apr 13 23:45:48 GMT 2014

Kcor came up with an error: Error 66 occurred at TCP Read in Kcor-C-Code-See if new image file has been created.vi ->Kcor - stand alone image acquisition without restarting socketcam.vi

____end____

GENERAL OBSERVATORY COMMENT BY waters: Sun Apr 13 23:47:27 GMT 2014

Skies have greatly cleared. Going to try starting kcor and comp.

____end____

Mon Apr 14 00:07:35 GMT 2014 KCOR Start Synoptic Patrol

Noise appearing in the data.

____end____

Mon Apr 14 00:34:23 GMT 2014 KCOR End Patrol

Mon Apr 14 00:38:09 GMT 2014 KCOR Start Synoptic Patrol

Mon Apr 14 00:42:17 GMT 2014 KCOR End Patrol

Mon Apr 14 00:42:29 GMT 2014 KCOR Start Synoptic Patrol

GENERAL OBSERVATORY COMMENT BY waters: Mon Apr 14 01:08:58 GMT 2014

Dome occulted Comp.

____end____

GENERAL OBSERVATORY COMMENT BY waters: Mon Apr 14 01:15:46 GMT 2014

Dome occulted Comp again. It seems it doesn't move fast enough before comp gets occulted.

____end____

Mon Apr 14 01:27:50 GMT 2014 KCOR End Patrol
