GENERAL OBSERVATORY COMMENT BY waters: Sat Jun 14 21:07:32 GMT 2014

The stream that only updates every ten seconds or so is acting strange. It keeps flipping between different times, for instance 17:16 and the next frame is from 18:20 and then 17:30 then 18:44. it does this for a bit before stabilizing for a few frames. Just glad the other Kcor stream is still normal.
