GENERAL OBSERVATORY COMMENT BY berkey: Mon Jun 16 18:08:12 GMT 2014

Up with Dennis to do kcor work. Looks like mlsoserver is sitll rebuilding so we don't have DHCP and things are otherwise s low. It also looks like CoMP failed to do its copy to mlsoserver last night which hopefully helps the disk rebuilding pro cess.

KCOR COMMENT BY berkey: Tue Jun 17 00:10:47 GMT 2014

I love alcohol!! After a long slog of trying to clean the new O1 with the normal soap and water method, I switched over to squirting isopropyl alcohol onto the lens which really cut through the residue. Now the lens is much cleaner, but still not quite as clean as I would like. I will bring up more isopropyl tomorrow and maybe try to address the current O1 as well.
