newport univerisal motion controller making fan nosie again today. Removed fan for cleaning. Seems like the bearing is st
arting to go. No spares found on the mountain so I ordered one. It should be on the mountain by Friday.

GENERAL OBSERVATORY COMMENT BY berkey: Tue Jul 22 01:54:00 GMT 2014

Gave a tour to a family of 5 that stopped in from Seattle. Cloudy days are a mixed blessing for tours. More time to show
people round, but no (live) data to show them :(
