WEATHER COMMENT: berkey: Wed Aug 13 16:49:27 GMT 2014

temp 45f, wind 5mph from the SE, clear skies with a strong but high temp inversion. Looks to be about 11,000 over Maui, so if it is similar here we may see some clouds later on.

CoMP COMMENT BY berkey: Wed Aug 13 16:50:46 GMT 2014

Giuliana reported no comp data made to Boulder for the last two days. Looks like the copy script was expecting to see a log directory in the data drive and crashed when it didn't exist. The log directory was recreated and the script seems to work now. Real test will come tonight.

KCOR COMMENT BY berkey: Wed Aug 13 20:32:52 GMT 2014

Kcor got an error trying to home the polarizer. Restarting labview code hopefully this clears things up and gets the cal-pol moving again
