GENERAL OBSERVATORY COMMENT BY berkey: Wed Jan 14 22:48:58 GMT 2015

Opened up Kcor for a measurement of where the aft-optics are w.r.t. to the O1 image. Instruments were stopped.

For the test the bandpass filter was removed and images of the solar image on a piece of paper were taken in front of the modulator and entrance to the aft-optics.

Band-pass filter was reinstalled and we are now observing again.
