          Mauna Loa Solar Observatory Observer's Log
------------------------------------------------------------------------------
         Tue Mar 10 19:17:51 GMT 2015
Year: 15  Doy: 069
Observer: stueben
WEATHER COMMENT: stueben: Tue Mar 10 19:18:05 GMT 2015
Clear, wind southeast 15-20 mph, temp 39F. The last mile of the road is very
slick with snow and ice. We parked before the last steep slope and Ben ferried
us up in his 4wd truck.

GENERAL OBSERVATORY COMMENT BY stueben: Tue Mar 10 19:21:39 GMT 2015
Pspt, kcor and comp are all running. Internet and phones are down but we have
called HawTel and they have a technician on the way.
___end___
KCOR COMMENT BY berkey: Tue Mar 10 19:35:08 GMT 2015
Installing "tape" lyot stop on the camera lens for a test with dennis.
___end___
KCOR COMMENT BY berkey: Tue Mar 10 19:36:53 GMT 2015
Tape stop is ~5mm cricle made of masking tape being centered at the alignment limit of a Mark 1 Dennis.
___end___
KCOR COMMENT BY berkey: Tue Mar 10 19:40:08 GMT 2015
Now taking data with the lyot  Starting 19:41:06 Ending at some point later.
___end___
GENERAL OBSERVATORY COMMENT BY berkey: Tue Mar 10 20:00:54 GMT 2015
A cloud is comming in so we are stop observing for observatory work.
___end___
GENERAL OBSERVATORY COMMENT BY stueben: Tue Mar 10 22:39:04 GMT 2015
Internet and phones have been back for a while.
___end___
KCOR COMMENT BY mlso: Tue Mar 10 22:55:04 GMT 2015
Before lunch the back end was removed.  Including camera/beam splitter assembly, shutter assembly, modulator and field len
s.  Perparing to install the laser for O1/field lens alignment.  Field lens w/o occutler assembly is ready to be reinstall
ed.
___end___
GENERAL OBSERVATORY COMMENT BY mlso: Tue Mar 10 22:56:51 GMT 2015
RA assembly has been comlpetely gutted.  After lunch Greg will start buildin up the new assembly.
___end___
GONG COMMENT BY mlso: Tue Mar 10 23:21:10 GMT 2015
Gong turret bagged.
___end___
GENERAL OBSERVATORY COMMENT BY mlso: Tue Mar 10 23:24:03 GMT 2015
at about 20UT before we started Kcor/RA work we pinned the spar at zenith and locked it in place.
___end___
GENERAL OBSERVATORY COMMENT BY mlso: Tue Mar 10 23:24:37 GMT 2015
Looks like the kcor/comp automatic observing comments specify mlsoserver by its dns name.  So this morning when the intere
nt was down the comments didnt get sent :(  For now I change the comp code to point at the IP address not the dns name, I
will fix KCor when we turn the computer back on.
```

___end___
CoMP COMMENT BY mlso: Tue Mar 10 23:26:47 GMT 2015
testing comp's comments now, Data collected after 20UT will be dome darks.
___end___
Tue Mar 10 23:28:10 GMT 2015 COMP End
CoMP COMMENT BY mlso: Tue Mar 10 23:29:39 GMT 2015
Cool it worked :)
