**KCOR PROBLEM COMMENT BY stueben **: Thu Jul 16 17:01:23 GMT 2015
Power was off when I arrived. The ups thought that it had no ac input power and
had depleted its batteries and shut down its outputs. AC power was in fact ok,
but I had to shut it down and turn it back on to get it to recognize that the
ac power was ok. I have seen this happen before and think it is a problem with
the ups. I will start kcor when everything is back on and up to temperature.
