GENERAL OBSERVATORY COMMENT BY stueben: Thu Jul 23 22:59:33 GMT 2015

Reconfigured dome shutter and adjusted sgs offsets about 2045UT.

PSPT PROBLEM COMMENT BY stueben : Thu Jul 23 23:01:33 GMT 2015

The new cables do not have Jxx/Pxx designators that agree with the old cables.

After some study it appears to me as if the new cables are built to the drawings. The old cables appear to be correctly marked on the controller end, but changed on the telescope end to match incorrect markings on the telescope.

I have now connected the new cables to the telescope end matching the old cables.
