GENERAL COMMENT BY berkey: Fri Aug 21 20:23:25 GMT 2015

Still socked out by cirrus, which is disappointing because there is interesting flaring in AR2403 this morning.

GENERAL COMMENT BY berkey: Sat Aug 22 00:12:43 GMT 2015

Added a wide angle camera view of the dome to the Iwii display.

Camera is mounted on the north wall of the dome. Current setup is in the "duct tape and bailing wire" type engineering. I have some plans how to upgrade things but wanted to get something running first.

GENERAL COMMENT BY berkey: Sat Aug 22 02:13:17 GMT 2015

The dome viewer camera software crashed once this afternoon. I think this was because I was polling it too often, I have made some changes to how it runs and I think I may have fixed the issue.

If the fix didn't solve the problem, you will see a Firefox unresponsive script error, at this point I think it is best to restart the browser and reload weather.html
