The contractor has ordered a crane so we will at least prepare for dome swap today. Hope the winds stay lite.

GENERAL OBSERVATORY COMMENT BY stueben: Wed Jan 6 01:50:01 GMT 2016

Old dome has been removed, dome walls cut down and new dome put in place.

No comments during the day as this was happening as the electricians were working in the control room and we didn't have easy access to the log.
