GENERAL COMMENT BY berkey: Mon Jan 11 18:04:36 GMT 2016

Spar had the RA osicllation again this morning. More tinkering with the weights dialed it out.

GENERAL COMMENT BY berkey: Mon Jan 11 20:35:37 GMT 2016

This morning to stop the oscillations, I add 5# to the front of the spar. This helped but, but put made the front of the spar to heavy to the point the clutch slipped and we long the last 15ish mintues while I added some mass to the back end to balance it out.

re aligned sgs

\_\_\_\_end\_\_\_\_

GENERAL COMMENT BY berkey: Tue Jan 12 01:18:21 GMT 2016

Ulua has been unplugged from the network at the direction of CSMT due to security issues.

This will break the mlsodata dashboard weather data prevent the observers from seeing kcor quicklook images until the issues are addressed.
