KCOR COMMENT BY stueben: Tue Jan 12 18:10:31 GMT 2016

Trying starting kcor before the 01 was clear of the dome. This worked reasonably well resulting in a few minutes of bad images before the 01 was completely clear of the dome at about 1806UT.

GENERAL COMMENT BY stueben: Tue Jan 12 20:23:37 GMT 2016

The contractor is here, they are starting to work on the roof. The interior plywood panels for the dome are still in Hilo, they are receiving a second coat of paint and when that dries (8 hrs) they will be brought up to mlso and installation can begin.
