
Mauna Loa Solar Observatory Observer's Log

Sun Feb 21 17:11:48 GMT 2016

Year: 16 Doy: 052

Observer: waters

WEATHER COMMENT: waters: Sun Feb 21 17:11:51 GMT 2016

Cirrus hovering over the Eastern horizon at present. Temp 45F with windspeed at about 15mph from the West-Southwest.

____end____

GENERAL OBSERVATORY COMMENT BY waters: Sun Feb 21 20:20:32 GMT 2016

Dome got stuck again and wouldn't move in the cw direction. Moving it ccw for a bit and then cw made it move. It was stuck in the Southeast position.

____end____

GENERAL OBSERVATORY COMMENT BY waters: Mon Feb 22 00:44:59 GMT 2016

Dome got stuck again, this time facing the South. Switching directions got it unstuck.

____end____

WEATHER COMMENT: waters: Mon Feb 22 00:45:47 GMT 2016

Windspeed is up to 20mph with gusts up to 25mph from the West. Just when the cirrus looked to be clearing.

____end____
