GENERAL COMMENT BY berkey: Thu Mar 31 01:57:24 GMT 2016

Winds stayed elevated today :(

David Patterson stoped by this morning to do one more final walk inspection. Sounds like we have 1-2 more weeks of punch list items left to go in the project. Mostly painting and touch up work as well as some things related to the doors. We are also still waiting on the floor/ceiling pass throughs to be installed next to the pier, which will involve pulling the kcor/sgs cables 1 more time.
