GENERAL COMMENT BY stueben: Sun May 15 00:12:52 GMT 2016

I brought the Rabbitair air purifier to MLSO today. I set it up on the floor just in front of the pier, which is about the center of the room but out of the path we usually move ladders. It also has a wall mount so we could mount it higher up on the dome wall if desired. It is set for a manual fan speed of medium - in auto mode it turns the fan speed to "Silent" after 3 min of darkness.
