GENERAL COMMENT BY berkey: Mon Jun 20 17:05:28 GMT 2016
Did some lower shutter maintaince this morning. Door should go all the way down and stop a little more smoothly when clos
ing.

GENERAL COMMENT BY berkey: Tue Jun 21 00:22:11 GMT 2016
Changed the logic for which images to copy to mlsoserver from the spar camera. The software copies one image every 2 minu
tes. And selects the image by choosing images with the even minute digits and second digits of less then or equal to the
```

image cadiance. The software did not get updated when the images cadiance was changed from 4 images a minute to 2. (Essen tially images need a second stamp of 15 or less to pass the filter, and when iwii rebooted this morning the webcam softare

started taking images with time stamps at 26, 56 seconds.

```
To fix this we now copy images with second time stamps of less then or equal 30 seconds.
