KCOR COMMENT BY berkey: Wed Mar 15 17:03:52 GMT 2017

Kcor aft-optics light shroud removed for fringe testing. It is assumed that the big NE fringes will return early in the morning with this shroud removed. If that is the case we will pause data collection and reinstall the shroud.

GENERAL COMMENT BY berkey: Thu Mar 16 02:06:00 GMT 2017

Cirrus moved in around 1:00UT :(

\_\_\_\_end\_\_\_\_

KCOR COMMENT BY berkey: Thu Mar 16 02:08:36 GMT 2017

With the aft-optics shroud removed we didn't any obvious NE fringing today. Looks like the source maybe related to the way the shroud installed into the optics box.

Leaving the shroud off until the fringes are shown to return.
