KCOR PROBLEM COMMENT BY berkey : Thu Apr 13 01:44:40 GMT 2017

Some of the kcor images are showing some bright pixel rows (might actually be a columns), whihc corespond to the general 1
ine banding we see in kcor. Bright line on the SW of the seems to be more presistent than the one in the NE.

Both of these bright lines are not obvious in the raw images.
