
Mauna Loa Solar Observatory Observer's Log

Tue Jul 18 16:01:34 GMT 2017

Year: 17 Doy: 199

Observer: waters

WEATHER COMMENT: waters: Tue Jul 18 16:22:37 GMT 2017

Temp 40F with windspeed at about 6-11mph from the South. Sky is covered in cirrus with thicker clouds towards the horizons.

Hoping the sky will clear to take data today.

GENERAL COMMENT BY waters: Tue Jul 18 19:13:53 GMT 2017

Closing the dome for some blowing fog coming in.

____end____

GENERAL COMMENT BY waters: Tue Jul 18 19:57:10 GMT 2017

The fog has passed but the sky doesn't look any better. Here's to hoping it clears, even just a little bit, later.

____end____

GENERAL COMMENT BY waters: Tue Jul 18 21:26:59 GMT 2017

In fog again

____end____

GENERAL COMMENT BY waters: Wed Jul 19 01:28:55 GMT 2017

The cirrus wouldn't let the sky go today; in and out of fog since about 1130 HST and about 1445 HST, the fog cleared but the sky was still banded with cirrus and clouds from Saddle heading up again. Here's to hoping the sky clears a bit tomorrow.
