GENERAL COMMENT BY berkey: Thu Nov 02 01:05:02 GMT 2017

New UPS arrived this morning. Boxes were removed from the pallette and brought in the building. UPS's were not unboxed waiting on 2 staff memebers to be on site before this happens.

Still trying to figure out the ultimate location for the UPS we talked about rack mounting; but I dont see any rails in the boxes. A good (maybe better) alternatiive will be to put it on a dolly next to or under the Martix 5000 UPS.
