Year: 18 Doy: 112

Observer: waters

WEATHER COMMENT: waters: Sun Apr 22 16:16:50 GMT 2018

Temp 37F with windspeed at about 5-10mph from the Southeast. Sky covered with cirrus at the moment. Waiting for better conditions before opening.

GENERAL OBSERVATORY COMMENT BY waters: Sun Apr 22 18:12:17 GMT 2018

Our Davis station upstairs wasn't working properly. It was saying the wind and temperature were well above what it actually was (wind 200+, temp 1000+). Unplugged and replugged it back in to restart it. Seems to have fixed it. Everything is reading normal again.

WEATHER COMMENT: waters: Mon Apr 23 01:26:07 GMT 2018

No data today. Hoping tomorrow we get a better sky.
