Thu Jun 28 22:48:30 GMT 2018 KCOR End Patrol

GENERAL COMMENT BY stueben: Thu Jun 28 22:49:14 GMT 2018

In rapidly building orographic clouds, instruments idled.

GENERAL COMMENT BY stueben: Fri Jun 29 01:40:56 GMT 2018

Fair seeing but bright sky at startup. The sky brightness decreased as the morning progressed so that by 10AM it was possible to get coronal images. Orographic clouds came up just before 1PM ending observation for the day.
