GENERAL OBSERVATORY COMMENT BY waters: Sun Jan 13 18:01:32 GMT 2019

MC4U GUI is taking about 30seconds to a minute to repond to any input. Restarting the GUI did not help. Will restart K-Cor computer to see if it fixes the delay.

The delay on MC4U GUI is down to about 5-20 seconds now, so the restart helped.

GENERAL OBSERVATORY COMMENT BY waters: Mon Jan 14 00:25:11 GMT 2019

Unfortunately, no data today. Sky has been too bright and seems to be getting worse as the day marches on. Hopefully tomorow will be a better day.
