GENERAL COMMENT BY waters: Wed Jan 30 22:53:58 GMT 2019

During the down time, Ben and I took a look at the RA and DEC. Did some tests to see if we could maybe get things balanced properly so the dec doesn't slip as much. Ended up just tightening the DEC a bit more. See if that helps.

GENERAL COMMENT BY waters: Thu Jan 31 02:30:53 GMT 2019

Clouds came in and out throughout the day, so not too much data was taken until this afternoon. Then the last half hour fog rolled in again.
