Temp 37F with windspeed at about 17-22mph from the South-Southeast. Sky seems clear at present. It seems our building is blocking the wind as NOAA is getting windspeeds at about 27-32 mph from the South-Southeast. Will wait for the wind to calm down before opening up.

Seems the wind is starting to calm down however, there's a fog bank coming in from the East and I can feel some moisture in the air and on my glasses. Waiting for conditions to get better.
