
Mauna Loa Solar Observatory Observer's Log

Thu Jan 9 16:36:02 GMT 2020

Year: 20 Doy: 009

Observer: waters

WEATHER COMMENT: waters: Thu Jan 09 17:17:49 GMT 2020

Temp 33.7f with windspeed at about 14-19mph from the Southeast. Currently in a wet fog, waiting for better conditions before starting up. Encountered black ice and then ice about 4 miles from the observatory, frost about a mile out and then dry pavement coming up the last bit around the gate.
