Year: 20 Doy: 014

Observer: waters

WEATHER COMMENT: waters: Tue Jan 14 17:10:06 GMT 2020

Temp 37.0f with windspeed negligible at present. Cirrus covering the sky at present, waiting for better conditions before starting up.

GENERAL COMMENT BY waters: Tue Jan 14 17:56:11 GMT 2020

Went and fiddled with the building camera. I think I got it around where we usually have it pointing. Might need some minor adjustments but I think it's okay.

GENERAL COMMENT BY waters: Wed Jan 15 02:09:21 GMT 2020

Swept and vacuumed upstairs. Worked on the manual, blacking out CoMP information to be place holders for when U-COMP comes in and re-adjusting Kcor instructions as well as the short start-up procedure.
