Mon May 18 16:55:26 GMT 2020 Kcor Focus/alignment program exited

Mon May 18 16:55:51 GMT 2020 SGS Alignment complete

Mon May 18 16:55:59 GMT 2020 SGS Alignment complete

KCOR COMMENT BY berkey: Mon May 18 17:05:58 GMT 2020

Accidentally started the focus code again after starting the observing code. Looks like this put the modulation in a weird state. In the labview images kcor caml looked a little dark, and the processed images showed no polarization signals. Stopping and restartign the observing code resolved this.
