GENERAL COMMENT BY berkey: Mon Jun 01 21:10:12 GMT 2020

Saw a lot of spar shake, epically in the dec. Moving the dome slot awa from the wind addressed some of this shaking.

Checked the spar balance an removed 5 pounds from the back. I also sligtly tightned the dec clutch.

Hopefully this reduced the spar shake in the early-afternoon.

Nice day. Looks like we missed a decent sized/bright cme launching before sunrise, near PA 120. CME detection code in the pipe did a good job finding it.
