GENERAL COMMENT BY mcotter: Sat Aug 08 17:11:59 GMT 2020

Sky is too bright to start K-cor. Waiting for "washout" of image to diminish.

GENERAL COMMENT BY mcotter: Sat Aug 08 19:43:14 GMT 2020

Restarted K-cor and had to try auto focus routine several times to achieve a relatively smooth parabola. Image appeared to be getting jostled by gusty winds out of the east. Partially closed dome windows to prevent image disruption.

GENERAL COMMENT BY mcotter: Sat Aug 08 19:58:18 GMT 2020

Strong wind gusts out of the east. Closed lower dome shutter door to help prevent wind turbulence in the dome. Wind was so strong that lower dome shutter door slammed shut before cable was fully retracted. Closed all dome windows, as they were not holding their partially open position.

GENERAL COMMENT BY mcotter: Sun Aug 09 02:27:25 GMT 2020

Skies remained clear but there was a lot of particles and aerosols present in images. Gusty winds were present throughout the day.
