GENERAL COMMENT BY berkey: Thu Oct 22 22:09:07 GMT 2020
PM Washed Kcor O1 and put first contact on the front surface. A small excess material remaining near the outer edge (the
largest region is found on the east side of the lens protruding about 1") was noticed during the re-installation.
er becasue the skies look ok, we will take some data before trying to address the issue.

KCOR COMMENT BY berkey: Thu Oct 22 23:15:29 GMT 2020
Kcor pipeline CME detection code found a CME near PA245 launching about 22:40UT. Area also looks to have a lot of acti
vity in h-alpha.
