****EVENT COMMENT BY lisapg**** : Fri Oct 23 18:19:51 GMT 2020

Beginning before start up, at PA 90, there can be seen in the outer corona in the Kcor NRGFs' what looks like a bright remnant of a prominence moving through the corona and continuing outward.

The power cord for the KVM switch is now connected to the Eton power control that is above KCor in the middle rack and connected to switch number 8. If there is an issue with the keyboard or mouse, switch off number 8 for a few seconds and then turn it back on.
