WEATHER COMMENT: mcotter: Wed Dec 16 17:30:26 GMT 2020

Temp: 36.3f, Humidity: 75%, Pressure: 28.692in, Wind: 3mph from 128degs, Skies: Complete cloud coverage over entire sky; looks like Altostratus or Nimbostratus cloud coverage over most of the sky with Cumulus and Stratocumulus clouds present on the horizon. I am not going to open the dome at this time in the event of precipitation.
