Cumulus cloud in the East has come up and is blocking the Sun. Closing the dome just in case.

Raining

GENERAL COMMENT BY lisapg: Wed Aug 11 18:57:31 GMT 2021

Went down the board walk and replaced two boards before the rain set in a bit hard. Some screws were replaced and nails hammered back in on boards that weren't replaced. Will wait for the rain to let up a little bit before continuing.

WEATHER COMMENT: lisapg: Thu Aug 12 00:30:39 GMT 2021

Rain finally let up. There are rocks on the side of the boards that are a bit unstable that I will try and nail down or put new screws in on Friday. If there are any boards anyone finds unstable, please put a rock on the side of it and I'll see what I can do.
