UCoMP COMMENT BY lisapg: Wed Sep 15 16:53:57 GMT 2021

When restarting the UComp controller.vi, an error popped up:

Standa stage: Cal Pol Rot was not found. To continue running UCoMP with this stage in simulation mode press OK. If this is a real problem press Cancel to QUIT now.

Hit cancel and going to restart labview again to see if it helps.

It looks like blowing off the field lens removed two of the several artifacts in the Southeast. Might need a cleaning soon
