Thorlabs seems to be having problems this morning. The USB wasn't being recognized, and then it was taking three or four attempts to get the program up and running instead of crashing.

GENERAL COMMENT BY lisapg: Wed Nov 10 20:25:35 GMT 2021

Looks like they will commence cement pouring soon and as the wind has shifted to come in from the Northeast, will shut down and close the dome to avoid dust collecting in the dome.

GENERAL COMMENT BY lisapg: Wed Nov 10 20:29:11 GMT 2021

Note that the cement pouring is happening to the East of the GONG shelter (Northeast from us).

GONG COMMENT BY lisapg: Thu Nov 11 01:53:32 GMT 2021
Went down and checked with the cement pourers; they have half of the first set of pillars done, they will be back Friday around the same time to do the next two. Keeping GONG stowed as they are still finishing up the last bit.

GENERAL COMMENT BY lisapg: Thu Nov 11 01:57:02 GMT 2021
Sky was nice in the morning but the afternoon was a bit bright and eventually we got clouds. Hope tomorrow is a better day.
