GENERAL COMMENT BY lisapg: Sun Dec 12 19:39:09 GMT 2021

Wind is starting to shift from the Southeast to East. Going to keep moving the dome as far South as I can to reduced the winds' influence on the Spar.

GENERAL COMMENT BY lisapg: Mon Dec 13 03:27:09 GMT 2021

A great day to take data; high winds kept the aerosols down and the cirrus kept missing the Sun.
