UCOMP COMMENT BY lisapg: Sun Jul 03 16:38:03 GMT 2022

UComp diffuser is reading as in beam but it is currently out of beam. When I try to move it, i get an error:

Error occurred at VISA read in UCOMP - Cal Diff Serial Writer.vi->UCOMP

Possible reason(s):

VISA: (Hex 0xBFFF003E) Could not perform operation because of I/O error

Checked the cabling up at the diffuse, and down at the bottom/end of Ucomp. None of the cables looked out of place or loose. Checking the connections down here

____end____

UCOMP COMMENT BY lisapg: Sun Jul 03 16:54:55 GMT 2022

I am a little confused. After power cycling stadia and the Ucomp computer, I am still getting the same error but I can see the diffuser move when I hit the Diffuser in/out button. The LED stays lit on diffuser in with the read out error. Not too sure what is happening at present. Working with Ben at present.
