WEATHER COMMENT: berkey: Tue Aug 02 00:28:30 GMT 2022
The sky has begun to get Orographic clouds coming up from the west and north slopes of
Maunaloa. Additionally, there is a very large dust storm visible in the western Saddle
Valley that is obscuring the view of the leeward side of the Big Island as well as kick
```

ing up dust into the atmosphere. Looking across the Saddle Valley it appears that the d ust has gotten up over the elevation of Hualalai and and may currently be above 10,000'

elevation.
