Year: 22 Doy: 230

Observer: berkey

GENERAL COMMENT BY berkey: Thu Aug 18 17:11:25 GMT 2022

PM Blew off Kcor O1. Getting a thin film of dust, will need cleaning as soon as the clean bench is available.

GENERAL COMMENT BY berkey: Thu Aug 18 17:25:45 GMT 2022

PM Blew off UCoMP O1. Optic was very dusty. Looks like the drop cloth used to build the warm tent for the floor is the source of much of this material. Optic will need a cleaning as soon as the clean bench is available.
