KCOR COMMENT BY lisapg: Sun Oct 09 17:12:21 GMT 2022

Spent the last hour and a half trouble shooting Kcor as the computer was giving off a high pitched noise when I came in. Turns out one of the power supplies seems to be down and we do not have a spare on the mountain.

KCOR COMMENT BY lisapg: Sun Oct 09 17:30:11 GMT 2022

An assist ticket was made to hopefully get a replacement and the Kcor2 power supply is sitting on work bench with a note indicating where it's from and when it was pulled.

Clouds coming in over the East are looking low and dark, keeping dome closed for now.
