UCoMP COMMENT BY mlso: Sun Nov 20 17:05:01 GMT 2022

Yesterday it looks like we saw the corona at 670, but not in the other 3 lines. The wave offsets for 761, 802 and 991 have been adjusted to look for the corona somewhere else (not really educated guess, just a chance to look somewhere else).

UCoMP COMMENT BY lisapg: Mon Nov 21 02:10:45 GMT 2022

About twenty minutes ago, the UComp instrument status came back with Cameras are returning no image data, you may need to power cycle the cameras. However, we are currently in the flats, so I will see how it looks once we're out of it.
