Note by alice Re: note from Eric:

Hi,  
According to the logs, Darryl restarted MKIII at 1750 UT yesterday. The first 3 files on the SCAN-LOG were very likely overwritten. I have edited a comment to 96044 log stating such. Please write in a similar comment to your copy of the log. Thanks.  
Aloha,  
Eric

So, there is no mk3 data until scan at 17:55
