Mauna Loa Solar Observatory Observer's Log

---

Sun Jun 16 16:22:18 GMT 1996

Year: 96 Doy: 168

Observer: yasukawa

WEATHER COMMENT: Sun Jun 16 16:22:34 GMT 1996

In moderate to heavy cirrus overcast. Cirrus deck is very extensive according to satellite images. Light southwest wind.

COMMENT: Sun Jun 16 16:59:18 GMT 1996

Cirrus is thick enough that we are unable to guide effectively.

I will shut down for now and do other things. I will restart logs and send an update should it clear up.
