COMMENT: Thu Jul 1 20:15:39 GMT 1999
Lost tracking for a little while, the dome blocked the guider scope.
COMMENT: Thu Jul 1 20:30:55 GMT 1999
I'm stopping observations so I can close the dome and point the Spar
straight up and do a Spectrum test on CHIP.

CHIP COMMENT: Thu Jul 1 21:00:10 GMT 1999
Lamp in place at front of vertical Spar, windows covered, starting Spectrum.
CHIP COMMENT: Thu Jul 1 22:29:03 GMT 1999
The Spectrum printout looks good, so the filter temperature is now good.
The filter still needs to be checked for oil on the front and rear
surfaces, and maybe cleaned.
