Testing Randy's modified observing program. Experienced one crash due to a missing ELSE command in in a bunch of CASE statements. Problem was fixed and we are running the program again.

OK, got thru a program loop. Assume that if it is past 1900 UT and the program gets to the 'waiting until 2000 UT' dialog, it successfully made it thru without crashing.

GONG COMMENT: Mon Aug 23 19:43:40 GMT 1999
