MLSO PROBLEM: Sun Sep 2 22:09:46 GMT 2001

Printer problems again. HP Laserjets both had gearing problems, and one has a "Service Needed" warning that I haven't been able to clear. I tried several options and swaps between the 2 while trying to get one to work well, hampered by limited accessibility to the cheap plastic gears that keep wearing out, there were at least 3 unusable gears. I'll put together one usable printer which is mainly the one we've been using plus gears and the fuser assembly from the other "spare" printer.

MLSO PROBLEM: Sun Sep 2 22:57:17 GMT 2001

Done with the printer changes, one works fine now, other will provide future spare parts I guess. I labeled the bad parts on the unusable printer.
