I installed the new network router and switch. Connections need to be made later.

COMMENT: Sat Apr 20 23:23:54 GMT 2002

Turned on power to mk4 heater, the strip gets hot to the touch, but doesn't seem to get over 63 C while heating. Looks safe, will see how things look and make more measurements tomorrow, if all looks well I'll insulate the heater and RTD.
