\*\*PSPT PROBLEM\*\*: Sun Aug 18 18:23:48 GMT 2002

Crashed at 1809 UT "making jpg images", killed runPspt.pro and restarted.

Sun Aug 18 18:42:32 GMT 2002 MKIV End Cal

Sun Aug 18 18:42:43 GMT 2002 MKIV Start Patrol

\*\*PSPT PROBLEM\*\*: Sun Aug 18 18:48:21 GMT 2002

Crashed again at 1839 UT, one of the messages in the xterm window after both crashes was "no space on device". I found that Kaiee is 100% full when I used the "df" command in an xterm window, maybe that is the problem, there also wasn't any email message regarding data transfers to Kaiee this morning like we usually get. I killed runPspt.pro and will try one more time, it may be that data must be removed from Kaiee before PSPT can continue to observe.

\*\*MLSO PROBLEM\*\*: Sun Aug 18 19:11:07 GMT 2002

Hoike display not animating. Tried logging out and in, still no go.

\*\*MLSO PROBLEM\*\*: Sun Aug 18 19:22:53 GMT 2002

Tried rebooting Hoike, still have problem, no animations, maybe related to Kaiee being full?

WEATHER COMMENT: Sun Aug 18 21:08:01 GMT 2002

Orographic clouds are passing over.

Sun Aug 18 21:19:20 GMT 2002 CHIP End Patrol

Sun Aug 18 21:42:36 GMT 2002 MKIV End Patrol

\*\*MLSO PROBLEM\*\*: Sun Aug 18 22:20:49 GMT 2002

Kii /local/d is 100% full too, like /data on Kaiee. Alice mentioned a few days ago that they haven't been getting our logs like usual, yesterday I tried sending test email messages from Nahenahe to alice@ucar.edu and koon@ucar.edu but they didn't get through or get returned - they just seemed to disappear. The @ucar.edu addressing is also used when the daily logs get sent. Maybe the logs problem and the full /local/d on Kii and full /data on Kaiee and Hoike animation problem are all tied together and caused by one main problem, like Kaiee not taking in any more data. I notified Alice and she probably knows how to get Kaiee fixed at least, most or all of the other problems (including the earlier PSPT problem) should clear up once Kaiee handles data correctly again.
